OFFICIAL PAPER OF THE CITY.

The Result.

THE ENTIRE Republican Union ticket was elected in this City, yesterday by a large majority, larger than was ever before given, although the aggregate vote was much smaller. Never before since the city was organized, has a charter election resulted in the election of the whole general and Ward tickets. It will be seen by the vote we give, that the thing went by default on the part of the Democracy, they polling only three or four votes in the Third Ward, and and in the Fourth, where they have almost almost always had a large majority, falling far behind.

We give the returns in brief from the several Wards separately:

FIRST WARD.—Mitchell, Mayor, 189 Pixley, 41. Foord, treasurer, 193, Thomas 41. Williston, Clerk, 190, Barton 44. Gibbs, School Commissioner at large, 184, Cole, 48. Hudson, Police Justice, 191, Parker, 42. Baker, Justice, 179, Sexton, 51. Macloon, Sealer, 180, Dunn, 48. Messrs. Jackson and Graham were elected Aldermen, and Plato Constable by large majorities, but we could not get the figures.

SECOND WARD.—Mitchell, 149, Pixley, 19. Foord 153, Thomas 17. Williston 123, Barton 19. Gibbs 139, Cole 24. Hudson 123, Parker 21. Baker, 149, Sexton 18. Macloon 142, Dunn 20. A. C. Bates Alderman, 145, C. L. Martin 19. A. S. Jones, School Commissioner, 152, and A. W. Parker Constable, 150.

THIRD WARD.—Mitchell, 74, Pixley, 3 Foord, 77, Thomas, 2. Williston, 76, Barton, 3. Gibbs, 76, Cole, 2. Hudson, 6, Parker 3. Baker, 75, Sexton 3. Macloon, 70, Dunn, 3. H. L. Smith, Alderman, 76. Philip Baker, Constable, 76.

FOURTH WARD.—Mitchell, 157, Pixley, 114. Foord, 168, Thomas, 105. Williston, 166, Barton, 103. Gibbs, 154, Cole, 117. Hudson, 159, Parker, 114. Baker, 157, Sexton, 115. Macloon, 147, Dunn, 117. McDougal, Alderman, 187, Hazelton, 73. Pendleton, school commissioner, 157, Parker, 114. Johnson, Constable, 187, Mulvorhill, 66.

TOWN ELECTIONS.—In the town of Center, the Union ticket was elected unanimously. Hon. E. A. Foot is elected Chairman of the Board.

In Plymouth, D. P. Douglass, Republican is elected Chairman.

In Harmony, Isaac E. Lake, Republican, is re-elected Chairman.

In Bradford, Norman Densmore, Republican, is re elected Chairman.

In Rock, Mr. Griffin, Republican is, elected Chairman.

We are not in possession of the vote of these towns, but presume most of the above named officers were elected without any considerable opposition.

WE GIVE in another place, the report of the joint legislative committee on our State finances. It presents a heavy aggregate of expenditure, but it will be seen, that the larger portion of it is for the support of the families of soldiers—an object for which taxes should be most cheerfully paid.

Honey Bees.

Editors Gazette:—As your paper is devoted to the interests of mankind, and especially of the farmers, merchants, and mechanics of Rock county, you will allow me to say a word on the subject that so few have given their attention to. I mean, honey bee culture. We read lengthy dissertations on sorghum culture, sugar beet culture &c., but rarely see an article on bee-keeping, and it is the more strange, when it can be made a source of so much profit, often paying fifty per cent. on the investment every year, besides the luxury of having one's own table supplied at all times with nice honey, instead of *sweetmeats*.

It is not supposed that every man who gets a hive of bees, will make his fortune without giving them more attention than to make a box to put each new swarm in, as it emerges from the parent stock. If that is their idea, they will get disappointed, and the enterprise prove a failure, for all depends on three requisites, the man, the hive and the season. With the two first right, we can, in a great measure, control the last. Any man or woman at a small expense can inform themselves as to the nature and habits of the honey bee by reading some good work on the subject, and very much by a visit to some intelligent bee keeper's apiary, for it is always a pleasure to bee keepers to impart information on this subject.

With a little experience and practice, one can handle his bees with impunity, and if he has the movable comb hive, he can control them as he will without enraging them, or being afraid of their sting, and this is one reason, perhaps, why so few keep bees; but treat them kindly and you will not have cause to complain of their weapon of defense. And no one need lose bees by their flying to the woods, or dying in the winter if they will take a little pains to prevent it. A word to the wise is sufficient. B. S. HOXIE.

THE ILLINOIS town elections, so far as reported, seem to have resulted in large Union gains. The Chicago *Tribune* heads the returns, "A general snake killing."

LOCAL MATTERS.

The "Great Rebellion."

It will be seen by our advertising columns that this great musical event in our city, to which we have referred, will come off at Lappin's Hall next week, Wednesday, Thursday and Friday evenings, April 13th, 14th and 15th; and a grand gala matinee on Saturday afternoon, April 16th, for the particular accommodation of ladies and children, and people from the country who cannot attend in the evening. The Allegory to be performed by some two hundred young people of our city, is entitled the "Great Rebellion," and was written by Henry Morford, of New York, a journalist and poet of no mean repute; and is illustrative of our national history, and the "Rebellion;" introducing stirring patriotic songs, declamations, dialogues, tableaux, &c., and is brilliant, pleasing and instructive. The States are represented by thirty-five young ladies, assisted by a military corps, whose evolutions and rallying round the old flag are said to be thrilling in the extreme. The Goddess of Liberty, Truth, Justice, Attendant Spirit, Hungarian, Italian, Irishman, War, Famine, Pestilence, Negro boy, &c., are all appropriately costumed, and appear conspicuously in the play. This piece, as we have stated, has been given in many of the principal cities east and west with immense success, and we have no doubt it will be just as successful here, as the talent employed in its rendition are mostly from the High School, who, as we learn, are to share largely in the proceeds of the entertainment, which will be a very acceptable feature to our citizens. We are glad to see that Mr. Hager has been induced to put the price of admission at 25 cents, which will afford everybody an opportunity to witness the entertainment, as certainly they should. See advertisement, and secure your tickets in time.

A GOOD AND SUFFICIENT REASON.—We have heard the reason why no democratic ticket was nominated in the 2d Ward, and give it as it was given us, in full belief of its correctness. A caucus to nominate candidates was duly called, and among other attendants was Alderman Bates, the nominee for Alderman on the Union ticket. The whole number in attendance was Asa. Rogers, Dr. C. L. Martin and Ald. B. To enable "the meeting" to make and second a motion, *two* persons being necessary for the purpose, Ald. B. consented to preside as chairman. Thus installed, he had the game in his own hands, and a motion to nominate Dr. M. for Alderman, he declared out of order. An appeal from his decision he likewise declared out of order, and every other motion met the same fate, until he finally declared the caucus adjourned *sine die* for want of a quorum to transact business. Thus it happened that the caucus failed to nominate a ticket, and left Ald. Bates to walk unopposed over the course. How it happened that delegates from the ward had credentials to the city convention which nominated a city ticket we have not heard, but we have a theory on the subject not now necessary to publish.

P. S. For further explanations or further details we refer the inquirer to Ald. Bates.

DANGEROUS USE OF FIREARMS.—About 10 o'clock last evening, some one on Main street, between East Milwaukee and Court streets, was firing a pistol, and as Mr. Fritz stepped to the door to see what the matter was, the third discharge was made, the ball striking the foot of Mr. F., but without doing any injury. He picked it up and brought it into our office this morning. Probably some one was discharging the pistol, holding the muzzle downward, but forgetting that a bullet will glance with fatal effect. There should be a law enforced against such free use of firearms.

MADISON elects Leitch, Democratic Mayor, by 30 majority; a Democratic loss of 225 since last year. The Union men elect their Treasurer, Police Justice, and five of the eight Aldermen.

THE COPPERHEAD majority at Dubuque was reduced at the late election, from 260 to 175. The Union men still hold a majority in the Common Council.

THE RADICAL majority in St. Louis is about 2,600. The new Council will stand, 13 Radicals to 7 conservatives.

RETURNS from all but three towns in Connecticut give Buckingham 5,541 majority. The Senate is 18 Unionists to 3 Democrats, House, Unionists, 150, Democrats, 75.

WATER WITCH.—The Regular meeting of Water Witch Engine Co. No. 2 will be held at their Hall to-morrow, Thursday evening at 7½ o'clock. A full attendance is xpected as business of importance is to be transacted. By order of the Foreman.

—When Cornelius Vanderbilt was a young man, his mother gave him $50 of her savings to buy a small sail-boat, and he engaged in the business of transporting market gardening from Staten Island to New York City. When the wind was not favorable he would work his way over the shoals by pushing the boat along by poles, putting his own shoulder to the pole, and was very sure to get his freight into market in season. This energy always gave him a command of full freights, and he accumulated money. After a while he began to build and run steamboats; and he is now reputed to be worth more than nineteen millions of dollars, after making the Government a present, as a free gift, of a steamer that cost $800,000.

Things to be Remembered.

First, That it is a positive business necessity to have your buildings, merchandize and other personal property insured against fire.

Second, That E. L. Dimock now has the agency of nearly all the *Sound Old Eastern* Insurance Companies that are represented in the west, and that the capital represented by those companies is sufficient to do all the insurance for *Janesville and Rock County*.

Third, That these companies are noted for adjusting losses fairly and paying them promptly.

Fourth, That E. L. Dimock has left a few more of those beautiful calendars for 1864, blotting pads and excise laws for distribution to customers.

DISEASES OF THE HEART.

BY DR. PRICE.

The Heart is a powerful muscular organ, having four apartments or cavities; its right and left auricle or muscular bag, and right and left ventricle or cavity. It is considered the centre of circulation. Of its muscular power we may have some conception when we consider that in man the whole quantity of blood is estimated at about 25 pounds, and that at every pulsation, (which, if regular, is about 75 per minute,) an ounce of blood passes through it. Upon this calculation, 6 pounds 3 ounces of blood pass through the heart to the lungs every minute of our lives, (this assertion is, however, made on mere conjecture.) It is very certain that all the blood in the body passes through the heart and lungs at least every ten minutes—six times every hour—and, upon an average, 144 times every 24 hours, from our earliest infancy to decrepid and childish old age.

What mysterious, enigmatical and complicated beings we are! How inconceivable! how intricate! how complex is the supernal machinery of our organization! Well may the intelligent and reflecting mind look with astonishment and veneration upon the sublimity, power and wisdom of the great Architect of Nature.

In every piece of mechanical ingenuity, however simple or complex may be its structure, we find, as indispensable to the whole, at least one great point of attraction or repulsion; so in the human frame, we designate the heart, in its simple operations to be the vital organ, which by its energy and action, gives to every fibre of the frame a principle peculiar to its immediate function. It is the constant spring, or fountain, which, emptying itself into those thousand little streams of the body, traverses the whole system, and imparts that vigor and animation so indubitable to the maintenance and support of life. This central organ—this sole power—which circulates the blood, is as liable to disease as the other organs of the body. There is no disease to which the human frame is subject, more intense and violent than a functional affection of the heart; and indeed so dreadful are some of the sensations attending it, that a patient, laboring under its influence, described it as a dreadful sensation, "approaching to a feeling of annihilation," far surpassing any degree of pain. I am not able here to render a complete analysis of the symptoms in attendance on this complaint, but will mention the more prominent of them that occur in the early stages of the disease.

An oppression or difficulty of breathing often amounting to suffocation or feelings of approaching death. Sometimes a pain is felt over the region of the heart, palpitations, rapid beating or fluttering motion, a feeling of tightness across the chest, or distress with short breath, which is increased upon exertion, especially when walking on an ascent or going up a pair of stairs, headache, cold feet and hands, pale face at times, at other times flushed, giddiness, ringing or buzzing in the ears, faintness, shiverings, nose bleedings and numbness. The side over the region of the heart sometimes enlarges, pulse interrupted often stops beating for some seconds, sleep confused and painful, with unpleasant dreams and sudden startings, bowels often irregular, urine high colored. The patient is irritable, melancholy, restless, fretful, subject to fits of passion, easily excited, and when so often unable to speak, quickly fatigued, anxious, nervous and nottional. Palpitations of the heart do not occur in any one case nor all of the above symptoms, but more or less are present in every case in the commencement of this disease, becoming more and more dreadful as the disease advances, terminating often when the patient is feeling most well in sudden death. From the great number of cases that I daily encounter, I am fully convinced that diseases of the heart are next in frequency to diseases of the lungs.

The incessant play of the passions, which are excitable to a high degree, are calulated to produce many disarrangements in the healthy action of this organ. It is justly remarked that local operations have no small degree of weight in the formation of this disease; for there is no point in the human character that cannot be swayed by circumstances. The mind ever on the stretch—the passions raised to a high degree of intensity, is a prolific source, from which this disease is especially to be expected. The violent agitations of the body causing the blood to course the human frame with accelerated force, and the distention of the heart with an inordinate quantity of blood, which, when impure, if it be not overcome by some potent remedy, but too frequently forms into a seated disease, eventuating in death. Whatever tends to overwork the heart thereby producing interruptions, also a diminution of power will occasion this disease, as indulgences in intoxicating liquors, long continued use of stimulants, tobacco, unnatural drains upon the system, rheumatism and other long standing ailments, intense study, mental depression, application of the mind with little or no bodily exercise, great anxiety to be rich, running in debt, working, fretting, trying to pay interest, causing vexations, trouble and disappointments, &c., &c. In the early period of this affection, remedial agents can be used that will arrest its progress. It is the inability of the heart to circulate the blood with that freedom which the organization of the animal economy requires, that is the cause of diseases of the heart. And with this view of the subject every means should be used for the purpose of "facilitating the circulation of the blood." When the disease has been long neglected and the heart itself fixedly implicated, a cure is seldom if ever attained, the disease most invariably has a sudden and fatal termination. The necessity of attending to the first symptoms of a disease so sure in its progress to destroy life, cannot but be seen by all. I am pursuing a system of treatment for the cure of all chronic complaints that is of a far different character from that usually entertained—one which I am satisfied cannot fail to recommend, itself to the common sense of every unprejudiced and intelligent individual, who will candidly exercise reason and common sense. There are some individuals so stereotyped in their dogmatical prejudice that they cannot believe that any discovery or improvement in medicine can originate, except within the precincts of their fregular institutions. A physician who is successful in curing lingering diseases must be a correct, liberal minded man, and dare to treat a disease according to what it may require, even if it should deviate from the established rules of the dark ages. The light of science at the present day directs us to the removal of causes, and to the laboratory of the Vegetable Kingdom for the constituents of the reparative process. I have my regular places of appointments, which places I have visited for the last five years, and which for years I shall continue to visit, treating exclusively chronic diseases.

My next days for consultation at Janesville upon all chronic diseases, Saturday and Sunday, the 30th of April and 1st of May. Rooms at the Hyatt House.

The Homestead Law to Apply to Rebel States.

FROM LA CROSSE.

LACROSSE, April 6th.—The Democratic candidate for Mayor, Pettibone, was re-elected by 54 majority. With the exception of the Republican Union candidate for City Clerk, who was elected by 19 majority, the entire Democratic ticket was elected.

ARMY OF THE POTMAC.

NEW YORK, 6.—*Times'* special says rumors so thickly flying about that Gen. Meade is to be removed, may as well be set at rest It is now understood as a settled matter that Meade will be retained in command of the army of the Potomac, more firmly in position than ever. Several of Dahlgren's command captured near Richmond, succeeded in effecting their escape and rejoined their Regiments.

FROM WASHINGTON.

NEW YORK, April 6.—A special dispatch to the *Tribune* dated Washington, April 5th, says: Ways and Means committee intended to report a new Revenue bill on Thursday next.

No definite decision is yet reached respecting the amount of tax to be imposed upon distilled spirits, Tobacco and Petroleum.

Gen. Sickles, accompanied by his personal staff, left here this morning for Cincinnati. He is charged with special orders from the President, under which he will make a complete tour of the territory reclaimed from the rebels, with a view of observing the temperament and disposition of the people towards the United States government, investigating practical workings of policies adopted in dealing with them, expounding the purposes of the Administration, and endeavoring to reconcile them to the government. Gen. Grant will make such suggestions to the President from time to time for a modification or change of policy as may occur to him from his observations at Cincinnati. A gunboat from Admiral Porter's fleet, will be placed at the disposal of the General, by which he will be conveyed to principal points west. He will return via the coast, calling at all points in Federal occupation, for which purpose an armed naval vessel will be assigned to him by Admiral Farragut. The President is exceedingly sanguine that the effect will be to restore the people to hearty allegiance, by opening their eyes which have been so long blinded by southern politicians, and convincing them of the desire of the government, while sternly demanding them to return to loyalty, dealing with them in kindness, with all forbearance.

A protracted storm has swollen the river to an alarming extent. Serious apprehensions are entertained for the safety of warehouses and other valuable property on wharves at Georgetown.

Gen. Lee seems to have taken it for granted that the Middle Virginia route to Richmond is not to be abandoned. Strong fortifications are being thrown up on the south side of the Rapidan at a point opposite Mitchell Station, or what is known as Clark's Mountain. The new works are plainly in view from our signal stations.

Additional to *Tribune's* special—House. Committee on public lands decided to report a bill extending the privilege of the homestead act to insurrectionary states, giving soldiers and sailors the privilege to enter upon such lands.

There is nothing so much sought for by the public as a practical Sewing Machine, one that is

Simple, Strong & Reliable.

One that will run for years without the annoyance of being out of repair; one that is noiseless and swift in motion; also that makes the stitch as you want it, alike on both sides of the fabric; such are the machines of the

FLORENCE SEWING MACHINE COMPANY!

Who take pleasure in placing their machines before the public, and unhesitatingly say they are the best in the world, and openly and publicly challenge machines of any and all manufactures to do as large a range of work, as can easily be done on one of these machines. They make

FOUR DIFFERENT STITCHES,

and have all the advantages of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stopping to change the length of stitch, is obviated by this machine.

FARMERS, TAKE NOTICE!

The undersigned are having made at Beloit, Wis., one hundred of those Reapers known as the

Cheap, or Webber Reaper!

Notwithstanding the increase of nearly double in price over other years of all materials put in Reapers, we are going to sell for 1864 at about the same prices as before. Our prices at the shop are $100 cash for single Reaper, for Reaper and Mower $140. We are making With Mowers, which will be warranted to do good work. They will be made of steel bars of the Buckeye pattern, except the blades.

Those buying Reapers alone can have Mowers the next year or Cutter for the same price, as the difference between reaper and mower.

We do not deem it necessary to extol our Reaper, for it is already known to be the only two-horse Reaper in use. Notwithstanding a great many are used with two horses, they ought to use three or four, and some of them six, to be as easy to the horse as ours are to two ordinary horses.

Please send in your orders early to be sure of a machine, as positively only one hundred of them will be built, and we will warrant each and every machine to

Work Well in all Kinds of Weather!

The Reels will be different from last year. They will be the over hanging reel, and have six bats. Instead of four keeping the reel, holding the grain to the sickle steady.

They will be shipped to any depot in Wisconsin or Illinois. Ten per cent. will be added if sold on time. One half the 1st of September, 1864, the balance the 1st of September, 1865.

Those buying machines will confer a favor by giving this machine publicity in their respective neighborhoods. When material gets to its usual stage we intend to make it a ninety dollar machine, and should have done it but for the unprecedented high prices of everything to construct machines with.

The Reaper Shop at Afton!

will attend strictly to the repairing of the Webber Reaper. None others wanted. We are prepared to change from chain to belt, put on castor wheels upon short notice. Men will be on hand to repair promptly. Charges light as the loss of material will admit. We shall manufacture none at that price, consequently we will be prepared to repair. Work solicited. All orders should be directed to CHURCH, WEBBER & CO.,

Rest In Peace.

The Democratic party to all intents and purposes is dead. It has been in a rapid decline for years, and its physicians have predicted, and predicted truly, that it could not survive the putting forth of the leaves of the Spring of 1864. At times within the last ten or twelve years, it has seemed to exhibit some considerable animation, but it was only the revival before death. To use a worn out phrase (but no more so than the party we are speaking of) it has accomplished its mission. It may indeed, after this, as one said facetiously of the old Whig party, turn over in its grave, but that is all. It is essentially to be classed now among the thing that have past.

In 1828, led by Gen. Jackson, it became a powerful party. It claimed to be the party of the people, and the party of progress, and as such the people rallied around it—they looked to it from the old world. There was a charm in the word democracy that at once lit up the enthusiasm of the down trodden of every land: It had live issues for its fundamental principles, and whether right or wrong in an absolute sense, the people were in sympathy with its doctrines, and for twenty years, with but one slight check its course was forward, and its progress irresistible.

But when this powerful party began to lean upon the south for its main support, when it began to abandon the cause of the people and of progress, and to ally itself with a system essentially undemocratic, to misrepresent and belie its name, to become a cheat and a deception to the people, then it was that the people began to open their eyes and to abandon the misnomer.

The rebellion finished up the work. Every State that went out of the Union, depleted the Democratic party to the full extent of its political strength. Every member that took his leave of Congress at the memorable session of '60, '61 was a deserter from the Democratic party, till at length they left the party completely powerless in that body. Since that the party in the north have become mere rebel sympathizers. Its members have no interest in the prosperity of the country, the advance of civilization or the progress of the principles of free government. They are employed only in placing obstacles in the way of the administration, and in illy concealing their joy at any reverses that may happen to our armies in the field. At times their newspapers put on a show of loyalty and urge a vigorous prosecution of the war, but they are sure to neutralize everything of that kind by the admixture of sedition as rank as they dare publish. But why should we further disturb the remains of the defunct party? Let it rest in peace.

STATE NEWS.

The erection of a new bank building has been commenced at Stevens Point.——A little son of Mr. Sharpstein of Stevens Point was hit on the head by an axe in the hands of a companion, inflicting an ugly, though not dangerous wound.——The Fond du Lac *Reporter* says the rains of this week have carried off the greatest part of the snow in the fields, and raised the streams pretty high. There is a prospect, with fair weather, of commencing farming operations this year.——A man named King made his escape from the State Prison on Wednesday evening of last week. He was imprisoned for horse stealing.——Mr. T. B. Dudley fell down in an apoplectic fit in the streets of Fond du Lac on Friday of last week, and died a few hours after.——The 7th Wisconsin Battery left Milwaukee for the front to-day. J. J. Talmadge, Esq., was re-elected President of the Milwaukee Chamber of Commerce at the annual meeting of that body on Monday evening.

A FIENDISH PROPOSITION.—The Richmond *Whig* proposes to hire incendiaries to set fire to New York, Philadelphia, Boston, Chicago, Pittsburg, Washington, and other principal cities of the North. It assumes that this piece of vandallism could be accomplished for a cash outlay of a million dollars, without risk or hazard, as men to do the business could be picked up in the cities to be destroyed. This mode of warfare, the "*Whig* thinks," would be perfectly "justifiable, legitimate and right." That the scoundrels are capable of wishing to achieve such a result we have no doubt; but there are difficulties in the way which will deter them from undertaking it. The suggestion, however, shows their desperation, and foreshadows their weakness.

PERSONS LIABLE TO BE DRAFTED.—Mr. Solicitor Whiting has decided that all persons liable to be enrolled are liable to be drafted, and though absent may be served with notice left at their last place of residence. Non-appearance upon such notice subjects them to the penalties of desertion. On this decision the Provost Marshal has issued his order.

A TOAST.—May our brave sailors, like our ships, have hearts of oak.

May superstition never make fools of the wise.

Wit should never raise a blush on the face of beauty.

The flower of affection should never be suffered to wither or decay.

We should either say nothing of the absent, or speak of them like a friend.

Woman's smile and woman's tear; one to enliven—the other to soften the heart of man.

Financial Report--State Tax.

The joint committee consisting of the committee on finance of the Senate, and committee of ways and means of the Assembly, to whom was referred so much of the Governor's message as relates to our State finances and commerce, and so much thereof as relates to the payment of $5 per month to the families of deceased soldiers, have had these subjects under consideration, and respectfully report that chapter 117, laws of this session, provides, that the families of all deceased persons, who have been, are now, or may hereafter become entitled to receive $5 per month from the State, may continue to receive the same for six months, unless they shall have commenced receiving a pension from the United States before the expiration of said time.

This fully carries out that part of the Governor's recommendation.

From information found in annual reports of State officers, and derived from the Secretary of State and State Treasurer, the estimates of expenditures from the general and war funds, for A. D. 1865; the revenues to accrue thereto, and the probable deficiency in the same for A. D. 1864, have been carefully made, and are herewith submitted as follows:

State loan tax for general purposes	200,000 00
Annual tax for interest on public debt which is already provided for in loan acts	140,000 00
	$1,190,000 00

The expenditures from the general fund as herein estimated, exceeds the estimates for the year 1864, $48,000.

This increase is necessary because of the great increase in value of all products, and commodities at the present time, and of the certainty of the further increase in the values of the same. Your Committee have, upon a careful examination of the condition of the general fund at this time, and the demands likely to be made upon the same for the current year, found it necessary to provide for an anticipated deficiency in said fund of $60,000.

Your Committee are of the opinion that the amounts herewith reported, although very large, cannot with safety be reduced. If any change is made they should be increased rather than diminished; but we feel confident that, with prudent management on the part of those having control of the expenditures of the State, and having the immediate charge of its funds, the aforesaid amounts will prove sufficient to pay all demands against the general war funds on presentation. The great tax herein recommended to be levied upon the property of the State this year, is the largest the people have ever been required to pay in any previous year. It is shown that a large share of the tax is for the partial support of the families of those brave and patriotic citizens who are engaged in the effort to put down this unjustifiable and most wicked rebellion against the best government in the world.

A rebellion so treasonable as to awaken the indignation and arouse the patriotism of every person not utterly demoralized by the institution of slavery, greed of political power, or love of the almighty dollar.

The people of this State have cheerfully responded to all calls for men and treasure to preserve this noble government instituted by our patriotic sires, ("in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defence, promote the general welfare, and secure the blessings of liberty to themselves and their posterity.") They promptly and willingly pay not only this tax but many more for the same purpose.

If it should be found that the expenditures for general purposes were necessary, and the management of State affairs has been judicious and calculated to promote the best interests and welfare of the people, and to develope the resources of the State to the greatest possible extent, and that expenditures have not been lavish, extravagant, or unwisely ordered, it is believed that the people will willingly pay the large sum herewith recommended.

The legislature should well and carefully consider the object of, and necessity for all proposed expenditures; no unnecessary burden should be imposed upon the tax payers to cause a diminution of their patriotic ardor, or discourage them in their efforts to put down this gigantic rebellion.

Your Committee have estimated the revenue likely to be derived from banks at the sum of $25,000 only, being less than one half the amount paid by them in 1863.

Under the national systems of banking, capital invested in national banks is exempt from all taxes—local, State or National—except a tax of one per centum on circulation and three per cent. on dividends, while our State banking capital is subject to a State tax of one and one-half per cent., a national tax of about the same amount on circulation, and a national tax of three per cent on dividends; it is apparent that under this inequality of the two systems, a large portion of the capital of the State banks must be withdrawn and incorporated into the national banks. If the relief asked for by our State banks is granted, the revenue accruing to the State therefrom will be diminished at least one-half the amount realized from said banks in 1863, and even if not granted, the revenue from this source would probably be diminished to an equal, if not greater extent, by our State banks organizing under the national system of banking, from which the State would derive no revenue.

The amount of revenue which will be received for railroad license for 1865; under existing laws, is estimated at $132,000, an increase of $25,000 over 1863, and $12,000 over the estimated revenue for 1864.

The question whether railroads in this State, in view of the increased tax upon all other property, caused by State aid to volunteers and local bounties to procure soldiers, should pay an increased per centage on their gross earnings, has come before your committee, but no conclusion has been arrived at as to the policy of such increase and no recommendation upon this subject is offered for the reason that the Senate Committee on Finance have under consideration a bill providing for an increase of two per cent. on railroad receipts, for license fee, and expect to procure more information than has been within the reach of the Joint Committee upon this subject, and will report the result of their consideration to the Senate hereafter.

The reputed value of the 1,000 miles of railroad in this State, is $30,000,000; this is undoubtedly a greater proportionate value, than the assessed value of the taxable property of the State, exclusive of railroad property.

The taxable property of the State, real and personal, outside of railroad property, as equalized in 1863, is $153,000,000, upon which must be levied $810,000, or about five and one half mills for each dollar of said taxable property.

Your committee are of the opinion, after a full examination of the subject, that a tax of $200,000 in addition to the revenue of the State as hereinafter shown, will be sufficient to provide for the expenditures from the general fund, and herewith report a bill levying the tax above indicated.

Your committee find that the average expenditures from the war fund, for aid of the families of volunteers for the past eighteen months, amount to over $50,000 a month, as the numbers of those entitled to aid is now being augmented by the prompt response of the people of this State, to the recent calls of the President of the United States, for more volunteers. Your committee have estimated that the sum of eleven thousand dollars per month, additional, will be required to supply the fund. The legislature of last year provided means to pay the claims against the same for the remainder of the present year, as well as the year 1865. Your committee, however, have only estimated the means necessary to supply the aforesaid fund until July 1st, 1865, leaving it for the next legislature to provide the necessary means for that purpose, should there be a necessity of keeping up such payment to volunteers after that date.

The means applicable to the payments to families of volunteers will be exhausted by the first day of May next, it will be necessary for the Legislature to provide the means necessary to replenish this fund so that the families entitled to the benefits of chapter 117 of the laws of this session may obtain their money promptly. There will be no money received from tax until the first of February of next year, and the amount necessary to be placed in this fund for the period of time is $650,000.

Your Committee are of opinion that the best method of supplying this sum is by issuing war bonds, or certificates of indebtedness, for the sum required.

These bonds or certificates of indebtedness to be of two classes, viz:

1st. Certificate of indebtedness to run for a period of time not exceeding six months, at a rate of interest not over seven per cent., to be sold at not less than par, and redeemable with the proceeds of a tax to be levied this year.

2d. Bonds or certificates of indebtedness redeemable in 1896, 1897, 1898 and 1899, to be invested in the Trust Funds of this State, known as the School, Drainage, Swamp Land and University Funds, at the discretion of the Governor, State Treasurer and Secretary of State, or a majority of them.

Your Committee find that the average receipts into the aforesaid Trust Fund for two years past, have been $19,000 per month, and they estimate that the receipts into these several Trust Funds from Feb. 1, 1864, to July 1, 1865, will amount to the sum of $350,000. It is believed to be sound policy at this time to invest these funds in the bonds or certificates of indebtedness of the State. This will make the indebtedness of the State for war purposes $2,100,000, and the entire public debt $2,200,000.

The balance due from counties amounting to $44,000, on the 1st of October last, is about the average sum generally remaining unpaid by the counties from year to year.

There is due the State from the General Government nearly $200,000, for advances made for boarding and equipping soldiers, caring for sick and other war expenses, but as the General Government do not recognize all the charges made as legitimate, it is not probable that a settlement of the account can be made this year, or that any sum will be realized from the same.

The committee report four bills herewith to provide for the war and general fund.

One for borrowing the sum of $350,000 from the trust fund of the State.

One for a temporary loan for six months of $300,000, which provides for levy of tax this year to redeem the same.

One for a State tax for war purposes of $200,000.

One for a State tax for general purposes of $200,000.

And recommend the passage of the same.

All of which is respectfully submitted.

W. A. LAWRENCE,
Ch'n of Committee on finances of Senate.
H. D. BARRON,
Ch'n Com. of Ways and Means of Assembly.

Sen. Earnest dissents from the recommendation herein contained which relates to the borrowing of $350,000, being opposed to any increase of the public debt or the investment of the trust fund in any State loan, but favors raising a tax for the entire sum of $1,190,000.

COUGHS AND COLDS.

The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the *early* stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, for the Cold, Cough, or Irritation of the Throat however slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires. ap1dawlm

HEIMSTREET'S INIMITABLE HAIR RESTORATIVE.

It is not a DYE, but restores gray hair to its original color, by supplying the capillary tubes with natural sustenance impaired by age or disease. All instantaneous dyes are composed of lunar caustic, destroying the vitality and beauty of the hair, and afford of themselves no dressing. Heimstreet's Inimitable Coloring not only restores hair to its natural color by an easy process, but gives the hair a luxuriant beauty, promotes its growth, prevents its falling off, eradicates dandruff, and imparts health and pleasantness to the head. It has stood the test of time, being the original Hair colouring, and is constantly increasing in favor. Used by both gentlemen and ladies. It is sold by all respectable dealers, or can be procured by them of the commercial agents, D. S. BARNES & Co., 202 Broadway, New York. Two sizes, 50 cents and $1. augldawgeowly

HARTFORD, CONN.

The Kind of Insurance Worth Having!

On the morning of the 22d of February, the brick block, occupied by the "Lafayette Journal Co." in Lafayette, Ind., was burned to the ground. The Phœnix had a policy of $5,000 on the type, presses and machinery of the "Journal"—the proofs of the loss were handed in at the General Agency Office in Cincinnati on the 26th, and on the same day, Mr Schuyler, representing the "Journal Co." received a draft for the full amount of his policy, as will be seen by the following receipt:

$5,000.

CINCINNATI, O., Feb 26th, 1864.

Received of the PHŒNIX INSURANCE COMPANY, of Hartford, Connecticut, by H. M. Mizell, General Agent of said Company, the sum of FIVE THOUSAND DOLLARS, it being in full of all claims and demands for loss or damage under Policy No. 2 310, issued at the Lafayette, Ind., Agency of the said Company, the loss originating by destruction of Printing Stock, on Feb 22d, 1864. OFFICIAL PAPER OF THE CITY.

The Result.

THE ENTIRE Republican Union ticket was elected in this City yesterday by a large majority, larger than was ever before given, although the aggregate vote was much smaller. Never before since the city was organized, has a charter election resulted in the election of the whole general and Ward tickets. It will be seen by the vote we give, that the thing went by default on the part of the Democracy, they polling only three or four votes in the Third Ward, and and in the Fourth, where they have almost almost always had a large majority, falling far behind.

We give the returns in brief from the several Wards separately:

FIRST WARD.—Mitchell, Mayor, 189 Pixley, 41. Foord, treasurer, 193, Thomas 41. Williston, Clerk, 190, Barton 44. Gibbs, School Commissioner at large, 184, Cole, 48. Hudson, Police Justice, 191, Parker, 42. Baker, Justice, 179, Sexton, 51. Macloon, Sealer, 180, Dunn, 48. Messrs. Jackson and Graham were elected Aldermen, and Plato Constable, by large majorities, but we could not get the figures.

SECOND WARD.—Mitchell, 149, Pixley, 19. Foord 153, Thomas 17. Williston 123, Barton 19. Gibbs 139, Cole 24. Hudson 123, Parker 21. Baker 149, Sexton 18. Macloon 143, Dunn 20. A. C. Bates Alderman, 145, C. L. Martin 19. A. S. Jones, School Commissioner, 152, and A. W. Parker Constable, 150.

THIRD WARD.—Mitchell, 74, Pixley, 3. Foord, 77, Thomas, 2. Williston, 76, Barton, 3. Gibbs, 76, Cole, 2. Hudson, 6, Parker 3. Baker, 75, Sexton 3. Macloon, 70, Dunn, 3. H. L. Smith, Alderman, 76. Philip Baker, Constable, 75.

FOURTH WARD.—Mitchell, 157, Pixley, 114. Foord, 168, Thomas, 105. Williston, 166, Barton, 102. Gibbs, 154, Cole, 117. Hudson, 159, Parker, 114. Baker, 157, Sexton, 115. Macloon, 147, Dunn, 117. McDougal, Alderman, 187, Hazelton, 73. Pendleton, school commissioner, 157, Parker, 114, Johnson, Constable, 187, Mulverhill, 66.

TOWN ELECTIONS.—In the town of Center, the Union ticket was elected unanimously. Hon. E. A. Foot is elected Chairman of the Board.

In Plymouth, D. P. Douglass, Republican is elected Chairman.

In Harmony, Isaac R. Leake, Republican, is re-elected Chairman.

In Bradford, Norman Densmore, Republican, is re-elected Chairman.

In Rock, Mr. Griffin, Republican is, elected Chairman.

We are not in possession of the vote of these towns, but presume most of the above named officers were elected without any considerable opposition.

WE GIVE in another place, the report of the joint legislative committee on our State finances. It presents a heavy aggregate of expenditure, but it will be seen, that the larger portion of it is for the support of the families of soldiers—an object for which taxes should be most cheerfully paid.

Honey Bees.

Editors Gazette:—As your paper is devoted to the interests of mankind, and especially of the farmers, merchants and mechanics of Rock county, you will allow me to say a word on the subject that so few have given their attention to. I mean, honey bee culture. We read lengthy disertations on sorghum culture, sugar beet culture &c., but rarely see an article on bee keeping; and is is the more strange, when it can be made a source of so much profit, often paying fifty per cent on the investment every year, besides the luxury of having one's own table supplied at all times with nice honey, instead of *sweetmeats*.

It is not supposed that every man who gets a hive of bees, will make his fortune without giving them more attention than to make a box to put each new swarm in, as it emerges from the parent stock. If that is their idea, they will get disappointed, and the enterprise prove a failure, for all depends on three requisites, the man, the hive and the season. With the two first right, we can, in a great measure, control the last. Any man or woman at a small expense can inform themselves as to the nature and habits of the honey bee by reading some good work on the subject and very much by a visit to some intelligent bee keeper's apiary, for it is always a pleasure to bee keepers to impart information on this subject.

With a little experience and practice, one can handle his bees with impunity, and if he has the movable comb hive, he can control them as he will without enraging them, or being afraid of their sting, and this is one reason, perhaps, why so few keep bees; but treat them kindly and you will not have cause to complain of their weapon of defense. And no one need lose bees by their flying to the woods, or dying in the winter, if they will take a little pains to prevent it. A word to the wise is sufficient. B. S. HOXIE.

Cooksville, Rock Co., April 5th 1864.

THE ILLINOIS town elections, so far as reported, seem to have resulted in large Union gains. The Chicago *Tribune* heads the returns, "A general snake killing."

—On the manuscript of Rosslin's new Mass is written, in his own handwriting, the following prayer:—"I hope this Mass will be reckoned above, against all my sins, and will open to me the gates of paradise."

LOCAL MATTERS.

The "Great Rebellion."

It will be seen by our advertising columns that this great musical event in our city, to which we have referred, will come off at Lappin's Hall next week, Wednesday, Thursday and Friday evenings, April 13th, 14th and 15th; and a grand gala matinee on Saturday afternoon, April 16th, for the particular accommodation of ladies and children, and people from the country who cannot attend in the evening. The Allegory to be performed by some two hundred young people of our city, is entitled the "Great Rebellion," and was written by Henry Morford, of New York, a journalist and poet of no mean repute; and is illustrative of our national history, and the "Rebellion;" introducing stirring patriotic songs, declamations, dialogues, tableaux, &c., and is brilliant, pleasing and instructive. The States are represented by thirty-five young ladies, assisted by a military corps, whose evolutions and rallying round the old flag are said to be thrilling in the extreme. The Goddess of Liberty, Truth, Justice, Attendant Spirit, Hungarian, Italian, Irishman, War, Famine, Pestilence, Negro boy, &c., are all appropriately costumed, and appear conspicuously in the play. This piece, as we have stated, has been given in many of the principal cities east and west with immense success, and we have no doubt it will be just as successful here, as the talent employed in its rendition are mostly from the High School, who, as we learn, are to share largely in the proceeds of the entertainment, which will be a very acceptable feature to our citizens. We are glad to see that Mr. Hager has been induced to put the price of admission at 25 cents, which will afford everybody an opportunity to witness the entertainment, as certainly they should. See advertisement, and secure your tickets in time.

A GOOD AND SUFFICIENT REASON.—We have heard the reason why no democratic ticket was nominated in the 2d Ward, and give it as it was given us, in full belief of its correctness. A caucus to nominate candidates was duly called, and among other attendants was Alderman Bates, the nominee for Alderman on the Union ticket. The whole number in attendance was Ans. Rogers, Dr. C. L. Martin and Ald. B. To enable "the meeting" to make and second a motion, *two* persons being necessary for the purpose, Ald. B. consented to preside as chairman. Thus installed, he had the game in his own hands, and a motion to nominate Dr. M. for Alderman, he declared out of order. An appeal from his decision he likewise declared out of order, and every other motion met the same fate, until he finally declared the caucus adjourned *sine die* for want of a quorum to transact business. Thus it happened that the caucus failed to nominate a ticket, and left Ald. Bates to walk unopposed over the course. How it happened that delegates from the ward had credentials to the city convention which nominated a city ticket we have not heard, but we have a theory on the subject not now necessary to publish.

P. S. For further explanations or further details we refer the inquirer to Ald. Bates.

DANGEROUS USE OF FIREARMS.—About 10 o'clock last evening, some one on Main street, between East Milwaukee and Court streets, was firing a pistol, and as Mr. Fritz stepped to the door to see what the matter was, the third discharge was made, the ball striking the foot of Mr. F., but without doing any injury. He picked it up and brought it into our office this morning.

Probably some one was discharging the pistol, holding the muzzle downward, but forgetting that a bullet will glance with fatal effect. There should be a law enforced against such free use of firearms.

MADISON elects Leitch, Democratic Mayor, by 50 majority; a Democratic loss of 225 since last year. The Union men elect their Treasurer, Police Justice, and five of the eight Aldermen.

THE COMPREHENSIVE majority at Dubuque was reduced at the late election, from 260 to 175. The Union men still hold a majority in the Common Council.

THE RADICAL majority in St. Louis is about 2,600. The new Council will stand, 13 Radicals to 7 conservatives.

RETURNS from all but three towns in Connecticut give Buckingham 5,541 majority. The Senate is 18 Unionists to 3 Democrats, House, Unionists, 150, Democrats, 75.

WATER-WITCH.—The Regular meeting of Water Witch Engine Co. No. 2 will be held at their Hall to-morrow, Thursday evening at 7½ o'clock. A full attendance is xpected as business of importance is to be transacted. By order of the Foreman.

A. SKELLY, Foreman,

R. W. ROTHROCK, Clerk.

Ap16d2d376.

—When Cornelius Vanderbilt was a young man, his mother gave him $50 of her savings to buy a small sail-boat, and he engaged in the business of transporting market gardening from Staten Island to New York City. When the wind was not favorable he would work his way over the shoals by pushing the boat along by poles, putting his own shoulder to the pole, and was very sure to get his freight into market in season. This energy always gave him a command of full freights, and he accumulated money. After a while he began to build and run steamboats; and he is now reputed to be worth more than nineteen millions of dollars, after making the Government a present, as a free gift, of a steamer that cost $800,000.

REGULAR MEETING.—The Regular meeting of Rescue Hook and Ladder Co. No. 1, will be held at their house, to-morrow, Thursday evening at 7½ o'clock.

Things to be Remembered.

First, That it is a positive business necessity to have your buildings, merchandize and other personal property insured against fire.

Second, That E. L. Dimock now has the agency of nearly all the *Sound Old Eastern* Insurance Companies that are represented in the west, and that the capital represented by these companies is sufficient to do all the insurance for *Janesville and Rock County*.

Third, That these companies are noted for adjusting losses fairly and paying them promptly.

Fourth, That E. L. Dimock has left a few more of those beautiful calendars for 1864, blotting pads and excise laws for distribution to customers.

DISEASES OF THE HEART.

BY DR. PRICE.

The Heart is a powerful muscular organ, having four apartments or cavities: its right and left auricle or muscular bag, and right and left ventricle or cavity. It is considered the centre of circulation. Of its muscular power we may have some conception when we consider that in man the whole quantity of blood is estimated at about 28 pounds, and that at every pulsation, (which, if regular, is about 75 per minute,) an ounce of blood passes through it. Upon this calculation, 6 pounds 3 ounces of blood pass through the heart to the lungs every minute of our lives, (this assertion is, however, made on mere conjecture.) It is very certain that all the blood in the body passes through the heart and lungs at least every ten minutes—six times every hour—and, upon an average, 144 times every 24 hours, from our earliest infancy to decrepid and childish old age.

What mysterious, enigmatical and complicated beings we are! How inconceivable! how intricate! how complex is the supernal machinery of our organization! Well may the intelligent and reflecting mind look with astonishment and veneration upon the sublimity, power and wisdom of the great Architect of Nature.

In every piece of mechanical ingenuity, however simple or complex may be its structure, we find, as indispensable to the whole, at least one great point of attraction or repulsion; so in the human frame, we designate the heart, in its simple operations to be the vital organ, which by its energy and action, gives to every fibre of the frame a principle peculiar to its immediate function. It is the constant spring, or fountain, which, emptying itself into those thousand little streams of the body, traverses the whole system, and imparts that vigor and animation so indubitable to the maintenance and support of life. This central organ—this sole power—which circulates the blood, is as liable to disease as the other organs of the body. There is no disease to which the human frame is subject, more intense and violent than a functional affection of the heart; and indeed so dreadful are some of the sensations attending it, that a patient, laboring under its influence, described it as a dreadful sensation, "approaching to a feeling of annihilation," far surpassing any degree of pain. I am not able here to render a complete analysis of the symptoms in attendance on this complaint, but will mention the more prominent of them that occur in the early stages of the disease.

An oppression or difficulty of breathing often amounting to suffocation or feelings of approaching death. Sometimes a pain is felt over the region of the heart, palpitations, rapid beating or fluttering motion, a feeling of tightness across the chest, or distress with short breath, which is increased upon exertion, especially when walking on an ascent or going up a pair of stairs, headache, cold feet and hands, pale face at times, at other times flushed, giddiness, ringing or buzzing in the ears, faintness, shiverings, nose bleedings and numbness. The side over the region of the heart sometimes enlarges, pulse interrupted often stops beating for some seconds, sleep confused and painful, with unpleasant dreams and sudden startings, bowels often irregular, urine high colored. The patient is irritable, melancholy, restless, fretful, subject to fits of passion, easily excited, and when so often unable to speak, quickly fatigued, anxious, nervous and notional. Palpitations of the heart do not occur in any one case nor all of the above symptoms, but more or less are present in every case in the commencement of this disease, becoming more and more dreadful as the disease advances, terminating often when the patient is feeling most well in sudden death. From the great number of cases that I daily encounter, I am fully convinced that diseases of the heart are next in frequency to diseases of the lungs.

The incessant play of the passions, which are excitable to a high degree, are calculated to produce many disarrangements in the healthy action of this organ. It is justly remarked that local operations have no small degree of weight in the formation of this disease; for there is no point in the human character that cannot be swayed by circumstances. The mind ever on the stretch—the passions raised to a high degree of intensity, is a prolific source, from which this disease is especially to be expected. The violent agitations of the body causing the blood to course the human frame with accelerated force, and the distention of the heart with an inordinate quantity of blood, which, when impure, if it be not overcome by some potent remedy, but too frequently forms into a seated disease, eventuating in death. Whatever tends to overwork the heart thereby producing interruptions, also a diminution of power will occasion this disease, as indulgences in intoxicating liquors, long continued use of stimulants, tobacco, unnatural drains upon the system, rheumatism and other long standing ailments, intense study, mental depression, application of the mind with little or no bodily exercise, great anxiety to be rich, running in debt, working, fretting, trying to pay interest, causing vexations, trouble and disappointments, &c., &c. In the early period of this affection, remedial agents can be used that will arrest its progress. It is the inability of the heart to circulate the blood with that freedom which the organization of the animal economy requires, that is the cause of diseases of the heart. And with this view of the subject every means should be used for the purpose of "facilitating the circulation of the blood." When the disease has been long neglected and the heart itself fixedly implicated, a cure is seldom if ever attained, the disease most invariably has a sudden and fatal termination. The necessity of attending to the first symptoms of a disease so sure in its progress to destroy life, cannot but be seen by all. I am pursuing a system of treatment for the cure of all chronic complaints that is of a far different character from that usually entertained—one which I am satisfied cannot fail to recommend itself to the common sense of every unprejudiced and intelligent individual, who will candidly exercise reason and common sense. There are some individuals so stereotyped in their dogmatical prejudice that they cannot believe that any discovery or improvement in medicine can originate, except within the precincts of their regular institutions. A physician who is successful in curing lingering diseases must be a correct, liberal minded man, and dare to treat a disease according to what it may require, even if it should deviate from the established rules of the dark ages. The light of science at the present day directs us to the removal of causes, and to the laboratory of the Vegetable Kingdom for the constituents of the reparative process. I have my regular places of appointments, which places I have visited for the last five years, and which for years I shall continue to visit, treating exclusively chronic diseases.

My next days for consultation at Janesville upon all chronic diseases, Saturday and Sunday, the 30th of April and 1st of May. Rooms at the Hyatt House.

GEN. MEADE TO BE RETAINED!

More Escaped Pris'ners

Gen. Sickles on a New Mission!

GEN. LEE FORTIFYING!

The Homestead Law to Apply to Rebel States.

FROM LA CROSSE.

LACROSSE, April 6th.—The Democratic candidate for Mayor, Pettibone, was re-elected by 54 majority. With the exception of the Republican Union candidate for City Clerk, who was elected by 19 majority, the entire Democratic ticket was elected.

ARMY OF THE POTOMAC.

NEW YORK, 6.—*Times'* special says rumors so thickly flying about that Gen. Meade is to be removed, may as well be set at rest. It is now understood as a settled matter that Meade will be retained in command of the army of the Potomac, more firmly in position than ever. Several of Dahlgren's command captured near Richmond, succeeded in effecting their escape and rejoined their Regiments.

FROM WASHINGTON.

NEW YORK, April 6.—A special dispatch to the *Tribune* dated Washington, April 5th, says: Ways and Means committee intended to report a new Revenue bill on Thursday next.

No definite decision is yet reached respecting the amount of tax to be imposed upon distilled spirits, Tobacco and Petroleum.

Gen. Sickles, accompanied by his personal staff, left here this morning for Cincinnati. He is charged with special orders from the President, under which he will make a complete tour of the territory reclaimed from the rebels, with a view of observing the temperament and disposition of the people towards the United States government, investigating practical workings of policies adopted in dealing with them, expounding the purposes of the Administration, and endeavoring to reconcile them to the government. Gen. Grant will make such suggestions to the President from time to time for a modification or change of policy as may occur to him from his observations at Cincinnati. A gunboat from Admiral Porter's fleet, will be placed at the disposal of the General, by which he will be conveyed to principal points west. He will return via the coast, calling at all points in Federal occupation, for which purpose an armed naval vessel will be assigned to him by Admiral Farragut. The President is exceedingly sanguine that the effect will be to restore the people to hearty allegiance, by opening their eyes which have been so long blinded by southern politicians, and convincing them of the desire of the government, while sternly demanding them to return to loyalty, dealing with them in kindness, with all forbearance.

A protracted storm has swollen the river to an alarming extent. Serious apprehensions are entertained for the safety of warehouses and other valuable property on wharves at Georgetown.

Gen. Lee seems to have taken it for granted that the Middle Virginia route to Richmond is not to be abandoned. Strong fortifications are being thrown up on the south side of the Rapidan at a point opposite Mitchell Station, or what is known as Clark's Mountain. The new works are plainly in view from our signal stations.

Additional to *Tribune's* special—House. Committee on public lands decided to report a bill extending the privilege of the homestead act to insurrectionary states, giving soldiers and sailors the privilege to enter upon such lands.

There is nothing so much sought for by the public as a practical Sewing Machine, one that is

and have all the advantages of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stopping to change the length of stitch, is obviated by this machine.

Any correspondence regarding our machines will be promptly answered. Enclose a letter stamp and we will send circular and sample of work by return mail.

FARMERS, TAKE NOTICE!

The undersigned are having made at Beloit, Wis., one hundred of those Reapers known as the

Cheap, or Webber Reaper!

Notwithstanding the increase of nearly double in price over other years of all materials put in Reapers, we are going to sell for 1864, at about the same prices as before. Our prices at the shop are $100 cash for single Reaper, for Reaper and Mower $140. We are making Fifty Mowers, which will be warranted to do good work. They will be made of steel bars of the Buckeye pattern, except the hinge.

Those buying Reapers alone can have Mowers the next year of the Reaper for the same price, as the difference between reaper and mower.

We do not deem it necessary to extol our Reaper, for it is already known to be the only two-horse Reaper in use. Notwithstanding a great many are used with two horses, they ought to use three or four, and some of them six, to be as easy to the horse as ours are to two ordinary horses.

Please send in your orders early to be sure of a machine, as positively only one hundred of them will be built, and we will warrant each and every machine to

Work Well in all Kinds of Weather!

The Reels will be different from last year. They will be the over hanging reel, and have six bats, instead of four keeping the reel, holding the grain to the sickle steady.

They will be shipped to any depot in Wisconsin or Illinois. Ten per cent. will be added if sold on time. One half the first of September, 1864, the balance the 1st of September, 1865.

Those buying machines will confer a favor by giving this machine publicity in their respective neighborhoods. When material gets to its usual stage we intend to make it a ninety dollar machine, and should have done it but for the unprecedented high prices of everything to construct machines with.

The Reaper Shop at Afton!

will attend strictly to the repairing of the Webber Reaper. None others wanted. We are prepared to change from chain to belt, put on castor wheels upon short notice. Men will be on hand to repair promptly. Charges light as the loss of material will admit. We shall manufacture none at this place, consequently we will be prepared to repair. Work solicited. All orders should be directed to

WEDNESDAY, APRIL 6, 1864.

N. O. B.

We find the mystic letters which lead this article in almost every copperhead journal which we pick up. At first we were at a loss to know the meaning, but by patient research we have discovered it —"Nigger On the Brain" is the explanation.

From quite a number of exchanges advocating the principles of both parties, we have come to the conclusion that the copperheads have it bad—almost gone with it. Not a solitary copy of a so-called Democratic paper do we get but it is filled with "*nigger*, NIGGER, NIGGER;" while on the other hand, the Union papers have but very little to say about the "cullud pussun."

With two such diseases as the copperheads labor under—"nigger on the brain" and "traitor on the heart," they are past the hope of recovery. There is only one thing that will cure the above diseases, and then only in their first stages, and that is, a strong dose of army life. This, in a majority of cases where it has been tried, effects a permanent cure. We know of only one case where the patient has had a relapse. We are sorry for him, for we believe that he will be cut off in the "flower" of his youth.—*Macomb Journal.*

DISEASES OF THE

EYE AND EAR!

DR. GARDNER,

Graduate of the London, England, Opthalmic Infirmary,

OCULIST AND AURIST!

Operator on the Eye and Ear, respectfully informs the citizens of JANESVILLE AND VICINITY, that he will visit Janesville one week, commencing on

Monday, April 11, until Saturday, 16th,

Office at the Hyatt House. After that time will visit Janesville as occasion may require, and can be consulted daily from 9 A. M. to 1 P. M., and from 2 to 6 P. M., on Deafness and Noises in the Head, Catarrh, Impaired Sight, and all the diseases of the Eye and Ear. Artificial Eyes inserted without pain, and perfectly resembling the natural eye. Operations for Cataract, Strabismus or Cross Eye, Artificial Pupil, &c., skillfully performed.

Deafness, Noises in the Ear, Running from the Ear, Scales in the Ear, Accumulation of Wax in Ear, Polypus in the Ear, in fact, every disease of the Eye and Ear treated, and every operation in Aural or Opthalmic Surgery performed by Dr. Gardner.

Read the Following Statement.

I certify that I have been afflicted for two years with granular inflammation of the eyes. I have been under the care of several physicians, but they did not afford me any relief. At times I suffered so with pain that I could not sleep. I called on Dr. Gardner two weeks ago, and have been under his treatment since. I am now happy to say that I can use my eyes for the usual purposes, seemingly, as well as ever. The pain has entirely left me. MISS ADELIA WALTER.
Milwaukee.

This certifies that my daughter has suffered from a discharge from both ears, accompanied by deafness, caused by scarlet fever when she was three years old. Having subjected her to the treatment of Dr. Gardner, I am happy to say that the discharges have entirely ceased and her hearing is restored.
M. J. BANCOCK,
Division Street, Milwaukee.

Miss Margaret Odey has been afflicted with inflammation of eyes for the last seven years, so that she could hardly distinguish light in all that time, and was unable to read or do any work. At times her eyes were so painful that she could not sleep. She has been under the treatment of several physicians who did not give her any relief. She called on Dr. Gardner two weeks ago, and now she is entirely cured. We feel entitled in speaking of the above case, from a desire of putting Dr. Gardner, but for the benefit of those who are similarly afflicted.—*Milwaukee Daily Sentinel, March 2d, 1861.*

Dr. Gardner still continues to receive a number of patients daily, who are suffering from diseases of the eye and ear. We know of several cases he has cured of blindness and deafness, which seemed almost miraculous. It is evident the Doctor understands his specialty. The afflicted should not delay to avail themselves of his skill. He does not take cases unless there are some hopes of a cure being effected.—*Daily Wisconsin,* Milwaukee.

Dr. Gardner's treatment of the eye and ear is wonderful.—*Daily News,* Milwaukee.

WALKER HOUSE, Milwaukee, Feb. 24, '64.

DR. GARDNER—*Dear Sir:* Having been afflicted with deafness for ten years in my left ear, and having noticed your advertisement in the Milwaukee papers, I was induced to pay you a visit. No one can imagine my delight, when, after two operations my hearing was suddenly and without pain restored to me, for which I feel grateful. After being almost shut out from the pleasure of using a necessary sense, to have returned, and to hear distinctly with both ears, reflects great credit on you for the skill you possess. I beg to thank you publicly for what I can so truly appreciate. I am, dear sir, yours respectfully,
GEO. S. MAWSON.

We know the case of Mr. Mawson to be strictly true.

BADGER!

1862! 1863! 1864!

GOOD! BETTER! BEST!

THE

BADGER DRILL!

HERETOFORE KNOWN AS

THE JESSUP DRILL!!

AS MADE BY

R. J. RICHARDSON,

is now vastly improved, and will hereafter be called the BADGER. The Badger possesses all the good qualities of the old drill, and many valuable improvements.

The feeding principle of the new Drill is the same as the old, but the working arrangement is quite different, and very much improved.

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by experienced workmen, under my own supervision, and am willing that it should be compared with the best Drill made.

The frames are made of summer seasoned white ash, from the forests of Indiana. The poles and rolls are dried ash from Jefferson county. The hubs, and other castings, are from the reliable Rock River Iron Works of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsburgh.

THE POINTS ARE CAST STEEL,

from the celebrated Sheffield works of Singer, Nimick & Co. The felloes are from the Ohio State Prison, located at Columbus, Ohio. The spokes are of dry white oak, from Northern Wisconsin. The chains are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself.

To those who know the old Drill it is only necessary to say that the Badger is like it—only better. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drill introduced.

That it is lighter draft and easier for the team than any Drill yet introduced into this market.

That it will distribute any kind of grain grown in this region. That it will

Plant Corn in Rows or in Hills!

Any distance apart, from three to six feet.

That the Badger is warranted to perform, in a good and workmanlike manner, all that is required of any Drill. If, on trial, it does not perform, it can be returned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all kinds of material, the Badger must be sold at advanced prices over last year.

Prices of the Badger for 1864:

9 Tooth Drill.....$75 11 Tooth Drill.....$85
11 Tooth Drill..... 80 12 Tooth Drill..... 90

Five dollars added for Grass Seeder. Four horse Drills will be made to order on short notice.
Price of 17th tooth Drill and Seeder, $120.

Janesville Daily Gazette.

WEDNESDAY, APRIL 6, 1864.

Rest in Peace.

The Democratic party to all intents and purposes is dead. It has been in a rapid decline for years, and its physicians have predicted, and predicted truly, that it could not survive the putting forth of the leaves of the Spring of 1864. At times within the last ten or twelve years, it has seemed to exhibit some considerable animation, but it was only the revival before death. To use a worn out phrase (but no more so than the party we are speaking of) it has accomplished its mission. It may indeed, after this, as one said facetiously of the old Whig party, turn over in its grave, but that is all. It is essentially to be classed now among the thing that have past.

In 1828, led by Gen. Jackson, it became a powerful party. It claimed to be the party of the people, and the party of progress, and as such the people rallied around it—they looked to it from the old world. There was a charm in the word democracy that at once lit up the enthusiasm of the down trodden of every land. It had live issues for its fundamental principles, and whether right or wrong in an absolute sense, the people were in sympathy with its doctrines, and for twenty years, with but one slight check its course was forward, and its progress irresistible.

But when this powerful party began to lean upon the south for its main support, when it began to abandon the cause of the people and of progress, and to ally itself with a system essentially undemocratic, to misrepresent and belie its name, to become a cheat and a deception to the people, then it was that the people began to open their eyes and to abandon the misnomer.

The rebellion finished up the work. Every State that went out of the Union, depleted the Democratic party to the full extent of its political strength. Every member that took his leave of Congress at the memorable session of '60, '61 was a deserter from the Democratic party, till at length they left the party completely powerless in that body. Since that the party in the north have become mere rebel sympathizers. Its members have no interest in the prosperity of the country, the advance of civilization or the progress of the principles of free government. They are employed only in placing obstacles in the way of the administration, and in illy concealing their joy at any reverses that may happen to our armies in the field. At times their newspapers put on a show of loyalty and urge a vigorous prosecution of the war, but they are sure to neutralize everything of that kind by the admixture of sedition as rank as they dare publish. But why should we further disturb the remains of the defunct party? Let it rest in peace.

STATE NEWS.

The erection of a new bank building has been commenced at Stevens Point.——A little son of Mr. Sharpstein of Stevens Point was hit on the head by an axe in the hands of a companion, inflicting an ugly, though not dangerous wound.——The Fond du Lac *Reporter* says the rains of this week have carried off the greatest part of the snow in the fields, and raised the streams pretty high. There is a prospect, with fair weather, of commencing farming operations this year.——A man named King made his escape from the State Prison on Wednesday evening of last week. He was imprisoned for horse stealing.——Mr. T. B. Dadley fell down in an apoplectic fit in the streets of Fond du Lac on Friday of last week, and died a few hours after.——The 7th Wisconsin Battery left Milwaukee for the front to-day. J. J. Tallmadge, Esq., was re-elected President of the Milwaukee Chamber of Commerce at the annual meeting of that body on Monday evening.

A FIENDISH PROPOSITION.—The Richmond *Whig* proposes to hire incendiaries to set fire to New York, Philadelphia, Boston, Chicago, Pittsburg, Washington, and other principal cities of the North. It assumes that this piece of vandalism could be accomplished for a cash outlay of a million dollars, without risk or hazard, as men to do the business could be picked up in the cities to be destroyed. This mode of warfare, the *Whig* thinks, would be perfectly "justifiable, legitimate and right." That the scoundrels are capable of wishing to achieve such a result we have no doubt; but there are difficulties in the way which will deter them from undertaking it. The suggestion, however, shows their desperation, and foreshadows their weakness.

PERSONS LIABLE TO BE DRAFTED.—Mr. Solicitor Whiting has decided that all persons liable to be enrolled are liable to be drafted, and though absent may be served with notice left at their last place of residence. Non-appearance upon such notice subjects them to the penalties of desertion. On this decision the Provost Marshal has issued his order.

A TOAST.—May our brave sailors, like our ships, have hearts of oak.

May superstition never make fools of the wise.

Wit should never raise a blush on the face of beauty.

The flower of affection should never be suffered to wither or decay.

We should either say nothing of the absent, or speak of them like a friend.

Woman's smile and woman's tear; one to enliven—the other to soften the heart of man.

—The oldest painting in the world is a Madonna and Child, painted A. D. 836. The oldest in England are said to be the portraits of Chaucer, painted in panel, in the early part of the fourteenth century, and of Henry IV., done in the beginning of the fifteenth century.

—In Litchfield, Connecticut, there is the following inscription on an old tombstone:—"Here lies the body of Mrs. Mary, wife of Dr. John Buel, Esq. She died November 4, 1778, Ætat 90, having had 13 children, 101 grandchildren, 274 great-grandchildren, 22 great-great-grandchildren, 410 total, 330 surviving.

Financial Report—State Tax.

The joint committee consisting of the committee on finance of the Senate, and committee of ways and means of the Assembly, to whom was referred so much of the Governor's message as relates to our State finances and commerce, and so much thereof as relates to the payment of $5 per month to the families of deceased soldiers, have had these subjects under consideration, and respectfully report that chapter 117, laws of this session, provides, that the families of all deceased persons, who have been, are now, or may hereafter become entitled to receive $5 per month from the State, may continue to receive the same for six months, unless they shall have commenced receiving a pension from the United States before the expiration of said time.

This fully carries out that part of the Governor's recommendation.

From information found in annual reports of State officers, and derived from the Secretary of State and State Treasurer, the estimates of expenditures from the general and war funds, for A. D. 1865; the revenues to accrue thereto, and the probable deficiency in the same for A. D. 1864, have been carefully made, and are herewith submitted as follows:

State loan tax for general purposes	200,000 00
Annual tax for interest on public debt which is already provided for in loan acts	140,000 00
	$1,190,000 00

The expenditures from the general fund as herein estimated, exceeds the estimates for the year 1864, $48,000.

This increase is necessary because of the great increase in value of all products, and commodities at the present time, and of the certainty of the further increase in the values of the same. Your Committee have, upon a careful examination of the condition of the general fund at this time, and the demands likely to be made upon the same for the current year, found it necessary to provide for an anticipated deficiency in said fund of $60,000.

Your Committee are of the opinion that the amounts herewith reported, although very large, cannot with safety be reduced. If any change is made they should be increased rather than diminished; but we feel confident that, with prudent management on the part of those having control of the expenditures of the State, and having the immediate charge of its funds, the aforesaid amounts will prove sufficient to pay all demands against the general war funds on presentation. The great tax herein recommended to be levied upon the property of the State this year, is the largest the people have ever been required to pay in any previous year. It is shown that a large share of the tax is for the partial support of the families of those brave and patriotic citizens who are engaged in the effort to put down this unjustifiable and most wicked rebellion against the best government in the world.

A rebellion so treasonable as to awaken the indignation and arouse the patriotism of every person not utterly demoralized by the institution of slavery, greed of political power, or love of the almighty dollar.

The people of this State have cheerfully responded to all calls for men and treasure to preserve this noble government instituted by our patriotic sires, ("in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defence, promote the general welfare, and secure the blessings of liberty to themselves and their posterity.") They promptly and willingly pay not only this tax but many more for the same purpose.

If it should be found that the expenditures for general purposes were necessary, and the management of State affairs has been judicious and calculated to promote the best interests and welfare of the people, and to develope the resources of the State to the greatest possible extent, and that expenditures have not been lavish, extravagant, or unwisely ordered, it is believed that the people will willingly pay the large sum herewith recommended.

The legislature should well and carefully consider the object of, and necessity for all proposed expenditures; no unnecessary burden should be imposed upon the taxpayers to cause a diminution of their patriotic ardor, or discourage them in their efforts to put down this gigantic rebellion.

Your Committee have estimated the revenue likely to be derived from banks at the sum of $25,000 only, being less than one half the amount paid by them in 1863.

Under the national systems of banking, capital invested in national banks is exempt from all taxes—local, State or National—except a tax of one per centum on circulation and three per cent. on dividends, while our State banking capital is subject to a State tax of one and one-half per cent., a national tax of about the same amount on circulation, and a national tax of three per cent on dividends; it is apparent that under this inequality of the two systems, a large portion of the capital of the State banks must be withdrawn and incorporated into the national banks. If the relief asked for by our State banks is granted, the revenue accruing to the State therefrom will be diminished at least one-half the amount realized from said banks in 1863, and even if not granted, the revenue from this source would probably be diminished to an equal, if not greater extent, by our State banks organizing under the national system of banking, from which the State would derive no revenue.

The amount of revenue which will be received for railroad license for 1865 under existing laws, is estimated at $132,000, an increase of $25,000 over 1863, and $12,000 over the estimated revenue for 1864.

The question whether railroads in this State, in view of the increased tax upon all other property, caused by State aid to volunteers and local bounties to procure soldiers, should pay an increased per centage on their gross earnings, has come before your committee, but no conclusion has been arrived at as to the policy of such increase and no recommendation upon this subject is offered for the reason that the Senate Committee on Finance have under consideration a bill providing for an increase of two per cent. on railroad receipts, for license fee, and expect to procure more information than has been within the reach of the Joint Committee upon this subject, and will report the result of their consideration to the Senate hereafter.

The reputed value of the 1,000 miles of railroad in this State, is $20,000,000; this is undoubtedly a greater proportionate value, than the assessed value of the taxable property of the State, exclusive of railroad property.

The taxable property of the State, real and personal, outside of railroad property, as equalized in 1863, is $153,000,000, upon which must be levied $840,000, or about five and one half mills for each dollar of said taxable property.

Your committee are of the opinion, after a full examination of the subject, that a tax of $200,000 in addition to the revenue of the State as hereinafter shown, will be sufficient to provide for the expenditures from the general fund, and herewith report a bill levying the tax above indicated.

Your committee find that the average expenditures from the war fund, for aid of the families of volunteers for the past eighteen months, amount to over $50,000 a month, as the numbers of those entitled to aid is now being augmented by the prompt response of the people of this State, to the recent calls of the President of the United States, for more volunteers. Your committee have estimated that the sum of eleven thousand dollars per month additional, will be required to supply the fund. The legislature of last year provided means to pay the claims against the same for the remainder of the present year, as well as the year 1865. Your committee, however, have only estimated the means necessary to supply the aforesaid fund until July 1st, 1865, leaving it for the next legislature to provide the necessary means for that purpose, should there be a necessity of keeping up such payment to volunteers after that date.

The means applicable to the payments to families of volunteers will be exhausted by the first day of May next, it will be necessary for the Legislature to provide the means necessary to replenish this fund so that the families entitled to the benefits of chapter 117 of the laws of this session may obtain their money promptly. There will be no money received from tax until the first of February of next year, and the amount necessary to be placed in this fund for the period of time is $650,000.

Your Committee are of opinion that the best method of supplying this sum is by issuing war bonds, or certificates of indebtedness, for the sum required.

These bonds or certificates of indebtedness to be of two classes, viz:

1st. Certificate of indebtedness to run for a period of time not exceeding six months, at a rate of interest not over seven per cent., to be sold at not less than par, and redeemable with the proceeds of a tax to be levied this year.

2d. Bonds or certificates of indebtedness redeemable in 1896, 1897, 1898 and 1899, to be invested in the Trust Funds of this State, known as the School, Drainage, Swamp Land and University Funds, at the discretion of the Governor, State Treasurer and Secretary of State, or a majority of them.

Your Committee find that the average receipts into the aforesaid Trust Fund for two years past, have been $19,000 per month, and they estimate that the receipts into these several Trust Funds from Feb. 1, 1864, to July 1, 1865, will amount to the sum of $350,000. It is believed to be sound policy at this time to invest these funds in the bonds or certificates of indebtedness of the State. This will make the indebtedness of the State for war purposes $2,100,000, and the entire public debt $2,200,000.

The balance due from counties amounting to $44,000, on the 1st of October last, is about the average sum generally remaining unpaid by the counties from year to year.

There is due the State from the General Government nearly $200,000, for advances made for boarding and equipping soldiers, caring for sick and other war expenses, but as the General Government do not recognize all the charges made as legitimate, it is not probable that a settlement of the account can be made this year, or that any sum will be realized from the same.

The committee report four bills herewith to provide for the war and general fund.

One for borrowing the sum of $350,000 from the trust fund of the State.

One for a temporary loan for six months of $300,000, which provides for levy of tax this year to redeem the same.

One for a State tax for war purposes of $200,000.

One for a State tax for general purposes of $200,000.

And recommend the passage of the same.

All of which is respectfully submitted.

W. A. LAWRENCE,
Ch'n of Committee on finances of Senate.
H. D. BARRON,
Ch'n Com. of Ways and Means of Assembly.

Sen. Earnest dissents from the recommendation herein contained which relates to the borrowing of $350,000, being opposed to any increase of the public debt or the investment of the trust fund in any State loan, but favors raising a tax for the entire sum of $1,190,000.

HEIMSTREET'S INIMITABLE HAIR RESTORATIVE.

It is not a DYE, but restores gray hair to its original color, by supplying the capillary tubes with natural sustenance impaired by age or disease. All instantaneous dyes are composed of lunar caustic, destroying the vitality and beauty of the hair, and afford of themselves no dressing. Heimstreet's Inimitable Coloring not only restores hair to its natural color by an easy process, but gives the hair a luxuriant beauty, promotes its growth, prevents its falling off, eradicates dandruff, and imparts health and pleasantness to the head. It has stood the test of time, being the original Hair coloring, and is constantly increasing in favor. Used by both gentlemen and ladies. It is sold by all respectable dealers, or can be procured by them of the commercial agents, D. S. BARNES & Co., 202 Broadway, New York. Two sizes, 50 cents and $1. augldawoowly

PHŒNIX INSURANCE CO.,

HARTFORD, CONN.

The Kind of Insurance Worth Having.

On the morning of the 22d of February, the brick block, occupied by the "Lafayette Journal Co.," in Lafayette, Ind., was burned to the ground. The Phœnix had a policy of $5,000 on the type, presses and machinery of the "Journal." The proofs of the loss were handed in at the General Agency Office in Cincinnati on the 26th, and on the same day, Mr. Schuyler, representing the "Journal Co." received a draft for the full amount of his policy, as will be seen by the following receipt:

$5,000. CINCINNATI, O., Feb. 26th, 1864.

Received of the PHŒNIX INSURANCE COMPANY, of Hartford, Connecticut, by H. M. Magill, General Agent of said Company, the sum of FIVE THOUSAND DOLLARS, it being in full of all claims and demands for loss or damage under Policy No. 2,310, issued at the Lafayette, Ind., Agency of the said Company, the loss originating by destruction of Printing Stock, on Feb. 22d, 1864. COMMERCIAL.

REPORTED FOR THE JANESVILLE GAZETTE, BY BUMP & GRAY, GRAIN AND PRODUCE DEALERS.

JANESVILLE, April 6, 1864.

The past week has been another very dull one in the produce market, which is owing to the bad condition of the roads, the recent heavy rain storm making them almost impassable. Wheat is in good demand by both millers and shippers, and with fair receipts the market would rule active at full prices. We quote choice samples at $1.05@1.08, and common to good quality at 90@$1.01. Oats are also in active demand, and we continue previous prices, being 56@56c for No. 1, and 50@55c for mixed lots. Corn is considerably inquired for, and under news of an improvement in the lake share, prices may be quoted 1@2c higher, with sales of shelled at 70@70c per bush, and ear at 62@65c @ 72lb. Potatoes are firm and advanced 5c per bushel, choice Neshannock and Peach Blows selling at 55@60c, and other qualities at 35@45c. Butter continues scarce at 23@23c. Eggs are plenty at 11@12½c.

We make up prices as follows:

WHEAT—Good to choice milling spring at $1 05@1 08; common to good shipping grades at 90c@$1.04.

OATS—Active at 56@56c for No. 1, and 50@54c for mixed lots.

CORN—Shelled, ₱ 60 ℔ at 73@76c; ear do, 63@65c ₱ 72lb.

RYE—Quiet at 90a93c for 60 pounds

BARLEY—Fine samples at $1.15@1.18; common to fair at 95c@1.10. Extra for seed $1.20.

TIMOTHY SEED—Good to choice at $1 90@2.15 for 46 pounds.

DRESSED HOGS—Range at $6.25@7.25 for light to heavy.

BEANS—Prime white $2.00a2,25; mixed lots $1.25a 1.75.

POTATOES—Choice Neshannocks and Peach Blows 55a60c; common 35a45c.

BUTTER—Good demand at 25@28c for good to choice roll.

EGGS—Plenty at 11@12½c per dozen.

POULTRY—Turkeys, dressed, 8@9c. Chickens 7@8 per pound.

HIDES—Green 7½@8c; dry 12a14c.

SHEEP PELTS—Range from $1 00 to $2 50 each.

FLOUR—Spring at retail $2.75 per hundred.

TOBACCO—Fair to prime leaf 7a10c.

WOOL—Dull at 60@62c, ½ off for unwashed.

NEW YORK MARKET.

[*By Telegraph.*]

NEW YORK, April 6.

FLOUR—5@10c better, at $7 00@7.10 for extra state; $7 35@7 45 R H O.

WHEAT—1@2c better, $1.00 for Chicago spring; $1.69@1 70 amber mill.

CORN—Shade firmer, at 20@30 old, mostly at inside.

OATS—Firmer, 89½@90c.

PORK—Firmer, $22.75 for mess; $22 25@22.50 old.

WHISKY—Firmer, at $1 05 for state; $1 06 western.

STOCKS—Irregular, generally better prices offered.

GOLD—$1 63½.

MILWAUKEE MARKET.

GREAT BOUNTIES PAID TO

U. S. VOLUNTEERS.

The following Bounties and Premiums will be paid to recruits enlisting for three years service:

Every Recruit who is a Veteran Volunteer, one month's pay in advance, and a Bounty and Premium in instalments amounting to

$402.

To all other Recruits not Veterans, one month's pay in advance, and a Bounty and Premium in instalments amounting to

$302.

All the Bounty and Premium paid, even if the war closes immediately after enlistment.

Protection to Widows and Orphans

All the Bounty paid to Legal Heirs, if the soldier dies in three years

You can serve in any Regiment you choose now in the field.

The following PREMIUMS will be paid to *any person* other than an officer, who shall bring in an accepted *Veteran* Recruit.

A Premium of	$25 00
For an accepted Recruit (not a veteran)	15 00
For a Deserter,	20 00

In offering these liberal terms, Bounties and Premiums, it is the desire of the Government to give the people an opportunity of doing away with the necessity for the draft, to come off January 5th, 1863, under the President's last call of October 17th, for 300,000 men. So that all sub-districts who furnish their quota under this last call will not be liable to the draft of January 5th, 1864, and will be credited for whatever number they furnish.

It should be understood that *all enlistments* whether under the above conditions, or in other organizations, will be credited to this last call.

For further information, come to the office of the Provost Marshal, 23 District.

[*Translated from the French.*]

After having played on the Piano of Messrs. Knabe & Co, it is impossible not to bear testimony to their qualities, *which have acquired for them the eminent* reputation which they enjoy. The Pianos of their manufacture, on which I have played, are exceedingly remarkable for their qualities The bass is powerful with all brightness, and the upper notes sweet, clear and harmoniously mellow, (chirstalline,) and I do not hesitate to express in regard to these instruments my entire satisfaction, and to declare that they are equal *if not superior* to the best manufactured in Europe or this country by the most celebrated makers

WEDNESDAY, APRIL 6, 1864.

X. O. B.

We find the mystic letters which lead this article in almost every copperhead journal which we pick up. At first we were at a loss to know the meaning, but by patient research we have discovered it—"Nigger On the Brain" is the explanation.

From quite a number of exchanges advocating the principles of both parties, we have come to the conclusion that the copperheads have it bad—almost gone with it. Not a solitary copy of a so-called Democratic paper do we get but it is filled with "*nigger*, NIGGER, NIGGER" while on the other hand, the Union papers have but very little to say about the "cullud pussun."

With two such diseases as the copperheads labor under—"nigger on the brain" and "traitor on the heart," they are past the hope of recovery. There is only one thing that will cure the above diseases, and then only in their first stages, and that is, a strong dose of army life. This, in a majority of cases where it has been tried, effects a permanent cure. We know of only one case where the patient has had a relapse. We are sorry for him, for we believe that he will be cut off in the "flower" of his youth.—*Macomb Journal.*

DISEASES OF THE EYE AND EAR!

DR. GARDNER,

Graduate of the London, England, Opthalmic Infirmary,

OCULIST AND AURIST!

Operator on the Eye and Ear, respectfully informs the citizens of JANESVILLE AND VICINITY, that he will visit Janesville one week, commencing on

Monday, April 11, until Saturday, 16th,

Office at the Hyatt House. After that time will visit Janesville as occasion may require, and can be consulted daily from 9 A. M. to 1 P. M., and from 2 to 6 P. M., on Deafness and Noises in the Head, Catarrh, Impaired Sight, and all the diseases of the Eye and Ear. Artificial Eyes inserted without pain, and perfectly resembling the natural eye. Operations for Cataract, Strabismus or Cross Eye, Artificial Pupil, &c., skillfully performed.

Deafness, Noises in the Ear, Running from the Ear, Scales in the Ear, Accumulation of Wax in Ear, Polypus in the Ear, in fact, every disease of the Eye and Ear treated, and every operation in Aural or Opthalmic Surgery performed by Dr. Gardner.

Read the Following Statement.

I certify that I have been afflicted for two years with granular inflammation of the eyes. I have been under the care of several physicians, but they did not afford me any relief. At times I suffered so with pain that I could not sleep. I called on Dr. Gardner two weeks ago, and have been under his treatment since. I am now happy to say that I can use my eyes for the usual purposes, seemingly, as well as ever. The pain has entirely left me. MISS ADELIA WALTERS, Milwaukee.

This certifies that my daughter has suffered from a discharge from both ears, accompanied by deafness, caused by scarlet fever when she was three years old. Having subjected her to the treatment of Dr. Gardner, I am happy to say that the discharges have entirely ceased and her hearing is restored.

M. J. BANCOCK, Division Street, Milwaukee.

Miss Margaret Odea has been afflicted with inflammation of eyes for the last seven years, so that she could hardly distinguish light in all that time, and was unable to read or do any work. At times her eyes were so painful that she could not sleep. She has been under the treatment of several physicians who did not give her any relief. She called on Dr. Gardner two weeks ago, and now she is entirely cured. We feel gratified in speaking of the above case, not with a desire of puffing Dr. Gardner, but for the benefit of those who are similarly afflicted.—*Milwaukee Daily Sentinel, March 2d, 1864.*

Dr. Gardner still continues to receive a number of patients daily, who are suffering from diseases of the eye and ear. We know of several cases he has cured of blindness and deafness, which seemed almost miraculous. It is evident the Doctor understands his speciality. The afflicted should not delay to avail themselves of his skill. He does not take cases unless there are some hopes of a cure being effected.—*Daily Wisconsin*, Milwaukee.

Dr. Gardner's treatment of the eye and ear is wonderful.—*Daily News*, Milwaukee.

WALKER HOUSE, Milwaukee, Feb. 24, '64.

DR. GARDNER—*Dear Sir:* Having been afflicted with deafness for ten years in my left ear, and having noticed your advertisement in the Milwaukee papers, I was induced to pay you a visit. No one can imagine my delight, when, after two operations, my hearing was suddenly and without pain restored to me, for which I feel grateful. After being almost shut out from the pleasure of using so necessary a sense, to have returned, and to hear distinctly with both ears, reflects great credit on you for the skill you possess. I beg to thank you publicly for what I can so truly appreciate. I am, dear sir, yours respectfully,

GEO. S. MAWSON.

We know the case of Mr. Mawson to be strictly true.

BADGER DRILL

1862! 1863! 1864!

GOOD! BETTER! BEST!

THE

BADGER DRILL!

HERETOFORE KNOWN AS

THE JESSUP DRILL!

AS MADE BY

R. J. RICHARDSON,

is now vastly improved, and will hereafter be called the BADGER. The Badger possesses all the good qualities of the old drill, and many valuable improvements.

The seeding principle of the new Drill is the same as the old, but the working arrangement is quite different, and very much improved.

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by experienced workmen, under my own supervision, and am willing that it should be compared with the best Drill made.

The frames are made of summer seasoned white ash, from the forests of Indiana. The poles and rolls are dried ash from Jefferson county. The bushs, and other castings, are from the reliable Rock River Iron Works of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsburgh,

THE POINTS ARE CAST STEEL,

from the celebrated Sheffield works of Singer, Nimick & Co. The fellows are from the Ohio State Prison, located at Columbus, Ohio. The spokes are of dry white oak, from Northern Wisconsin. The chains are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself.

To those who know the old Drill it is only necessary to say that the Badger is like it—only better. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drills introduced.

That it is lighter draft and easier for the team than any Drill yet introduced into this market.

That it will distribute any kind of grain grown in this region. That it will

Plant Corn in Rows or in Hills!

Any distance apart, from three to six feet;

That the Badger is warranted to perform, in a good and workmanlike manner, all that is required of any Drill. If, on trial, it does not perform, it can be returned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all kinds of material, the Badger must be sold at advanced prices over last year.

Prices of the Badger for 1864:

9 Tooth Drill.....$75 11 Tooth Drill.....$85
13 Tooth Drill..... 80 12 Tooth Drill..... 90

Five dollars added for Grass Seeder. Four horse Drills will be made to order on short notice.

Price of 17th tooth Drill and Seeder, $120.

COMMERCIAL.

REPORTED FOR THE JANESVILLE GAZETTE, BY HUNT & GRAY, GRAIN AND PRODUCE DEALERS.

JANESVILLE, April 6, 1864.

The past week has been another very dull one in the produce market, which is owing to the bad condition of the roads, the recent heavy rain storm making them almost impassable. Wheat is in good demand by both millers and shippers, and with fair receipts the market would rule activeat full prices. We quote choice samples at $1.05@1.08, and common to good quality at 9?o@$1.01. Oats are also in active demand, and are continue previous prices, being 56@58c for No. 1, and 50@54c for mixed lots. Corn is considerably inquired for, and under news of an improvement at the lake shore, prices may be quoted 1@2c higher, with sales of shelled at 73@76c ?? 60 lb, and ear at 63@65c ? 72 lb. Potatoes are firm and advanced 5c per bushel, choice Neshannock and Peach Blows selling at 55@60c, and other qualities at 35@45c. Butter continues scarce at 25?28c. Eggs are plenty at 11@12½c.

We make up prices as follows:

WHEAT—Good to choice milling spring at $1.05@1.08; common to good shipping grades at 90c@$1.04.

OATS—Active at 56@58c for No. 1, and 50@54c for mixed lots.

CORN—Shelled, ? 60 lb at 73@76c; ear do., 63@65c ? 72 lb.

RYE—Quiet at 90a95c for 60 pounds.

BARLEY—Fine samples at $1.15@1.18; common to fair at 95c@$1.10. Extra for seed $1.20.

TIMOTHY SEED—Good to choice at $1.90a2.15 for 40 pounds.

DRESSED HOGS—Range at $6.25@7.25 for light to heavy.

BEANS—Prime white $2.00a2.25; mixed lots $1.25a 1.75.

POTATOES—Choice Neshannocks and Peach Blows 55a60c; common 35a45c.

BUTTER—Good demand at 25@28c for good to choice roll.

EGGS—Plenty at 11@12½c per dozen.

POULTRY—Turkeys, dressed, 8@9c. Chickens 7@8 per pound.

HIDES—Green 7½@8c; dry 12a14c.

SHEEP PELTS—Range from $1.00 to $2.50 each.

FLOUR—Spring at retail $2.75 per hundred.

TOBACCO—Fair to prime leaf 7a10c.

WOOL—Dull at 58a62c, ¼ off for unwashed.

NEW YORK MARKET.

[*By Telegraph.*]

NEW YORK, April 6.

FLOUR—5@10c better, at $7.00@7.10 for extra state; $7.35@7.45 R H O.

WHEAT—1@2c better, $1.60 for Chicago spring; $1.09@1.70 amber mill.

CORN—Shade firmer, at 70@80 old, mostly at inside.

OATS—Firmer, 89½@90c.

PORK—Firmer, $22.75 for mess; $22.25@23.50 old.

WHISKY—Firmer, at $1.05 for state; $1.06 western.

STOCKS—Irregular, generally better prices offered.

GOLD—$1.63?8.

MILWAUKEE MARKET.

[*By Telegraph.*]

GREAT BOUNTIES PAID TO

U. S. VOLUNTEERS.

The following Bounties and Premiums will be paid to recruits enlisting for three years service:

Every Recruit who is a Veteran Volunteer, one month's pay in advance, and a Bounty and Premium in enlistments amounting to

$402.

To all other Recruits not Veterans, one month's pay in advance, and a Bounty and Premium in instalments amounting to

$302.

All the Bounty and Premium paid, even if the war closes immediately after enlistment.

Protection to Widows and Orphans.

All the Bounty paid to Legal Heirs, if the soldier dies in the service.

You can serve in any Regiment you choose now in the field.

The following PREMIUMS will be paid to *any person* other than an officer, who shall bring in an accepted *Veteran* Recruit.

A Premium of,	$25 00
For an accepted Recruit (not a veteran)	15 00
For a Deserter,	30 00

In offering these liberal terms, Bounties and Premiums, it is the desire of the Government to give the people an opportunity of doing away with the necessity for the draft, to come off January 5th, 1863, under the President's last call of October 17th, for 300,000 men. So that all sub-districts who furnish their quota under this last call will not be liable to the draft of January 5th, 1864, and will be credited for whatever number they furnish.

It should be understood that *all enlistments* whether under the above conditions, or in other organizations, will be credited in this last call.

For further information, come to the office of the Provost Marshal, 2d District.

GOTTSCHALK ON KNABE.

[Translated from the French.]

After having played on the Piano of Messrs. Knabe & Co., it is impossible not to bear testimony to their qualities, which have acquired for them the eminent reputation which they enjoy. The Pianos of their manufacture, on which I have played, are exceedingly remarkable for their qualities. The bass is powerful without harshness, and the upper notes sweet, clear and harmoniously mellow, (chrystalline,) and I do not hesitate to express in regard to these instruments my entire satisfaction, and to declare that they are equal *if not superior* to the best manufactured in Europe or this country by the most celebrated makers.

Signed, L. M. GOTTSCHALK.
